

Enterprise Longitudinal Access and Adjudication Data (ELAAD) for Digital

Exceptional healthcare data, business logic, and analytical methodologies tailored for marketers to deliver campaigns with impact.

ELAAD for Digital offers a comprehensive dataset of open, longitudinal claims across all therapeutic areas. ELAAD for Digital provides healthcare brands and their partners with the capability and confidence to plan, implement and optimize winning omnichannel strategies. Part of IQVIA's Health Data Suite for Digital, this dataset is built on a robust foundation of healthcare data and supported by experts.

Accelerate marketing success with digital use cases

Planning: Quantify audience scale and reach for HCP and consumer campaigns

Measurement: Assess campaign effectiveness using health outcomes and engagement metrics

Audience building: Create segments based on clinical relevance, therapeutic interest, and behavioral signals

Optimization: Accelerate performance insights and refine strategies using real healthcare data

ELAAD for Digital by the numbers

~330M
de-identified patients

~12M
healthcare providers (HCPs)

~93%
all U.S. retail prescription claims

~764K
healthcare organizations (HCOs)

Impact marketing across therapeutic areas with our open claims dataset

Combines pharmacy, lifecycle, medical, and remittance claims into one complete longitudinal patient data asset

Uses open claims transactions to provide broad perspective on both patient and HCP experiences

Empowers customers to understand the entire patient journey, HCP dynamics, market trends, and early insights on new treatments

Utilizes proven patient-centric methodologies to harmonize data across suppliers, creating a single source of truth for patient data

Delivers a comprehensive view of provider and patient interactions, with payer plan details

All lifecycle claims

+

All paid claims

+

All medical and remittance claims
